

Xyzy Tile Review

Browser-side SVG rendering from the shared JSON catalog.

81 tiles from <http://127.0.0.1:49322/src/apps/xyzy/xyzy-tiles.json>; 47 review groups from <http://127.0.0.1:49322/src/apps/xyzy/xyzy-review-groups.json>

Rendered 59 catalog tiles, 22 binary tiles, 1 special single-row groups, 24 standard-model single-row groups, 3 quark color example groups, and 19 composite groups from the JSON-driven Xyzy catalogs. Frame rect 6 6 68x68

Special Single-Row Groups

Explicit four-tile strips that are not part of the standard-model fermion family review.

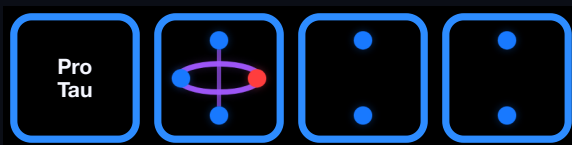

Unbound Architrinos

unbound-architritos

Standard Model Single-Row Groups

All pro and anti quark and lepton rows rendered as four abutted Xyzy tiles.
