

pdgedit Tile Review

Browser-side SVG rendering from the shared JSON catalog.

92 tiles from <http://127.0.0.1:51019/src/apps/pdgedit/pdgedit-tiles.json>; 50 review groups from <http://127.0.0.1:51019/src/apps/pdgedit/pdgedit-review-groups.json>

Rendered 49 catalog tiles, 19 composite label tiles, 24 binary tiles, 1 special single-row groups, 27 standard-model single-row groups, 3 quark color example groups, and 19 composite groups from the JSON-driven Pdgedit catalogs. Frame rect 6,6 68x68.

Special Single-Row Groups

Explicit four-tile strips that are not part of the standard-model fermion family review.

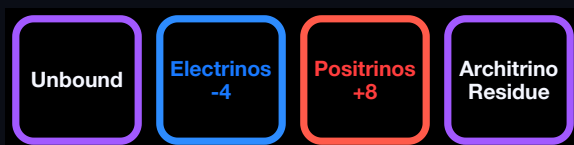

Unbound Architrinos

unbound-architinos

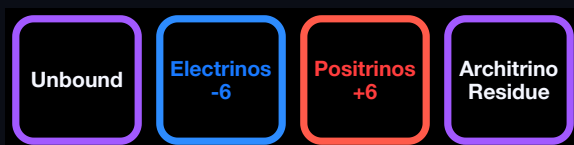

Standard Model Single-Row Groups

All pro and anti quark and lepton rows rendered as four abutted pdgedit tiles.

Unbound Architrino Residue 4E/8P
